

PVF Polyvinyl fluoride thermal transfer printable self-laminating labels

Tyco Electronics PVF is a thermal transfer printable, translucent polyvinyl fluoride (Tedlar®) film with a permanent acrylic adhesive, designed for wire and cable marking applications that require the 'self-extinguishing' properties of Tedlar®. PVF labels are supplied with a white printable area, which is over-laminated upon application with the translucent portion of the label. This 'self-laminating' feature protects the printed area from exposure to oil, solvents, water and abrasion. The low-profile design makes PVF suitable for wrapping onto thin wire gauges. For reliable print performance and durability use with Tyco Electronics 1330-3300 series ribbon.

Features and benefits

- Resists water, oils, and conventional cleaning agents
- Filters UV light
- Exhibits high degree of resistance to aging
- Thermal transfer printable

Temperature rating

Operating temperature range -53°C to +135°C -65°F to +275°F

Specifications/approvals

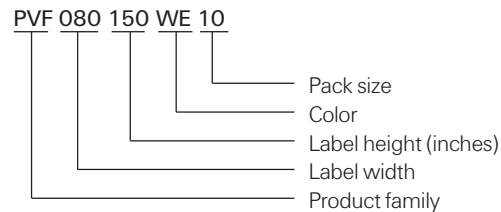

Tyco Electronics TTDS-111

Printer information

Tyco Electronics printer T308S* (thermal transfer)
 Tyco Electronics ribbon 1330-3300-10* (thermal transfer)

**Alternative printers and ribbons are available for special applications. Contact Tyco Electronics Identification for more information.*
